ABSTRACT

The Tex-SIS Follow-up system First Year Graduate Survey involved 37 Texas community colleges and resulted in a total of 6,560 questionnaires processed from institutional surveys conducted during fall semester 1976. The average response rate was 59%. Following a section presenting the study highlights in graphic form, the monograph presents aggregate statewide questionnaire responses expressed as numbers and percentages and broken into categories of all majors, associate in arts, associate in applied science, and certificate graduates. Survey items include primary educational objectives, employment status, the rating of courses (quality of instruction, grading, content, instructional media, class size), rating of college services (financial aids, counseling, job placement, course advisement, tutoring services, Veterans' services, library services, etc.), college transfer experiences, and employment related items (usefulness of college preparation, salary ranges, job availability in the chosen field). The questionnaire is appended. (KJC)

COMPLIANCE WITH TITLE VI, CIVIL RIGHTS ACT OF 1964; TITLE IX OF THE EDUCATION AMENDMENTS OF 1972; AND THE MODIFIED COURT ORDER, CIVIL ACTION 5281, FEDERAL DISTRICT COURT, EASTERN DISTRICT OF TEXAS, TYLER DIVISION

Reviews of local education agencies pertaining to compliance with Title VI Civil Rights Act of 1964; Title IX of the Education Amendments of 1972; and with specific requirements of the Modified Court Order, Civil Action No. 5281, Federal District Court, Eastern District of Texas, Tyler Division are conducted periodically by staff representatives of the Texas Education Agency. These reviews cover at least the following policies and practices:

(1) acceptance policies on student transfers from other school districts;

(2) operation of school bus routes or runs on a non-segregated basis;

(3) non-discrimination in extracurricular activities and the use of school facilities;

(4) non-discriminatory practices in the hiring, assigning, promoting, paying, demoting, reassigning, or dismissing of faculty and staff members who work with children;

(5) enrollment and assignment of students without discrimination on the basis of race, color, national origin, or sex;

(6) non-discriminatory practices relating to the use of a student's first language; and

(7) evidence of published procedures for hearing complaints and grievances.

In addition to conducting reviews, the Texas Education Agency staff representatives check complaints of discrimination made by a citizen or citizens residing in a school district where it is alleged discriminatory practices have occurred or are occurring.

Where a violation of Title VI of the Civil Rights Act and/or Title IX of the Education Amendments of 1972 is found, the findings are reported to the Office for Civil Rights, Department of Health, Education and Welfare.

If there is a direct violation of the Court Order in Civil Action No. 5281 that cannot be cleared through negotiation, the sanctions required by the Court Order are applied.

Preface

This monograph is part of a series of publications designed to disseminate data produced by the Tex-SIS Follow-up system. The system, designed by Tarrant County Junior College, Fort Worth, Texas, is currently in use on a statewide basis among the various postsecondary institutions in Texas. A total of fourteen different questionnaires are available for utilization by the colleges on a discretionary basis. These questionnaires, in addition to system implementation procedures, are contained within follow-up Manuals, which are being used by the colleges to conduct their surveys. These Manuals were distributed statewide in August of 1976.

Since individual surveys are conducted on a local basis with many of the colleges utilizing the same questionnaire, comparisons of "local" data with "State" data are facilitated. For this reason, the report formats contained within this monograph have been specifically designed to allow such comparisons to be made. Colleges are encouraged to enter their own individual data in the appropriate locations on the data pages and then reproduce the information for local dissemination. A blank report format page found toward the end of this monograph can be used to report data by categories other than those included in this document (i.e., individual program areas, special populations, etc.). A copy of the questionnaire used for the 1975-76 first year graduate study can also be found toward the end of this monograph.

The first year graduate surveys were, in most cases, conducted using three mailouts with the first mailout consisting of a transmittal letter, questionnaire, and postage-paid return envelope, while the second mailout consisted of a postcard reminder only. The third mailout, in many cases, was a repeat of the technique utilized in the first mailout. Thirty-seven individual colleges (69% of the involved Texas colleges) were involved in the statewide composite of first year graduate data. Both occupational/technical and university transfer/academic graduates were included in most of the surveys. After the surveys were completed, Tarrant County Junior College monitored, keypunched, processed, and returned (with the data analysis printouts) the questionnaires to the college for local interpretation. At the appropriate time, all of the keypunched cards were loaded for a "State" composite analysis, thereby producing the data included in the monograph.

A total of 6,560 first year graduate questionnaires were processed from surveys conducted during the Fall semester of 1976. It should be understood that the data represents a large amount of effort provided on a volunteer basis by liaison personnel in the thirty-seven involved colleges. Because the data produced as a part of the Tex-SIS Follow-up system is treated in a confidential manner, the names of these individuals and their participating colleges are not provided.

The number of colleges, categorized by initial population, number of responses, and response rate, can be found below:
